

PT. GOLDEN PRICINDO INDAH

MECHANICAL ENGINEER

This position will be at **Cigaru Site in Processing -Metallurgy Department, reports directly to Operational Director.**

The **MECHANICAL ENGINEER** responsible to:

- Manage the Reliability Engineering function within fixed plant maintenance and provide technical support to the Maintenance execution teams in line with operational needs. They will work as part of a team and seek continuous improvement opportunities and provide professional support to the broader maintenance group
- Develop and implement condition monitoring and predictive maintenance techniques with the aim of improving process plant asset performance. Improving performance will see reduced number of first time and recurring lost production incidents leading to increased process plant availability. The focus of the role will be 2 fold, first being managing and executing the condition monitoring program
- Close interaction with your peers: Mechanical, Electrical, Process and Metallurgical Personnel as well as Maintenance Planning and Supply & Logistics will be crucial to the overall success of your role

Candidates for this role would be expected to have the following qualifications and experience:

1. Graduated from Mechanical Engineer –Diploma III, desirable Bachelor Degree (4 year) in Mechanical Engineering from recognized University
2. Possess broad based, comprehensive experience in similar supervisory position within the mining, oil & gas or similar heavy industrial environment.
3. Minimum 5 years experience gained in production metallurgical role within the resource sector.
4. Broad based comprehensive experience with mechanical maintenance problem-solving and inspection processes.
5. Good knowledge of predictive maintenance methodologies
6. Interpretation of engineering drawings.
7. Computer literacy with Microsoft Excel, Word, Power Point Outlook and Internet

If you believe, you possess the skills, qualification and experience to fill in the position, please send in your CV complete with your latest photograph
